1 Debi Raitz★ 04-30-2016 06:19 PM ET (US) IP: 69.14.123.141	I don't want to restrict this to just clear glass with gold because there might not be that many. So I think once we look at all of our salts we will be surprised at how many have some form of gold added decoration. Anything goes - glass, china or any other material. I want your CROWN Judy !!!
Bob was finally up to some pictures for eBay and I asked him to take a picture of this little guy as I have tried every which way with my phone with no luck - Even Bob had trouble because it is a small bowl and the green is very pale so the decorations show through from the back - He did not make it in time for green - but the enameling on him is gold - The saying written across the front is "Remember Me" - Had to have been done for some special occasion and I would think there would be more out there - It came in a collection I bought and I fell in love with it right away -

Some lovely salts being shown.
This one is Australian. In the shape normally seen as made in Glass
by Crown Crystal but this is ceramic with Gardic or Gardie Australia on
the bottom. It is really hard to find salts made here.
