

Open Salts

Helen & Phil Rosso Wholesale Glass Dealers, Inc.

Helen & Phil Rosso Wholesale Glass Dealers, Inc, 1725 Trimble Avenue Port Vue, PA, have been serving Gift Shops, Antique Shops, Auctioneers, and Flea Marketers since 1969. They do not make any glass, having all their glass made by several different Glass Factories. However they own several open salt molds and acquired several more from the closing of Summit Art Glass in 2006. They are having some made using some of these molds and plan to have others made in the future. They sell salts from other glass makers as well as having salts made for them by various glass makers using their molds. We are only addressing the molds that they own in this information sheet, however we will try to address some of the salts they have sold that were general production of other companies, however were made for Rosso and they sold with floral decals. They have some of their products marked with the R in Keystone mark as shown above

(This information as of October 1, 2010 with all information available at that time)
