Cambridge Glass c.1931

Imperial Glass after 1958

Summit Art Glass-Repros
c.1973-2006

Known colors:
Cambridge; Yellow and others
Imperial; Amber and others
Summit; see Summit
under Ed Bowman Research

Note: Same as H&J 2111. Similar
to CAMBRIDGE NO. 3400/71 but
without the flared rim.

Imperial acquired molds from
Cambridge but as far as it is
known, Imperial only made this
type with the unflared rim.

Summit acquired mold from
Imperial and produced it only with
the unflared rim. Amethyst shown
below is Cambridge with flared
rim for comparison.
