

RO-FT-7-7

2-1/4" D x 1-1/8" H
Made in Germany
Known colors: Clear
Details: Lead crystal.
Fine grater style diamonds on sides with four smooth circles.
Bottom has 16 rays.
Angle of some pictures looks like an uneven top but those angular protrusions are on the side.
Note: Definitely not RAMONA pattern by McKee. No open salt is known in that pattern, just shakers. Similar salt shown at RO-FT-7-8. This is commonly seen as the insert for the silver chariot below.
