

BEADED TRIANGLE

aka

Diamond Pyramids,
Inverted Imperial

Manufacturer & Years

Indiana Tumbler & Goblet Co.
c.1894

National Glass Co. after 1899

Measurements

Ind: 2" D x 1-1/2" H

Known Colors

Clear

References

H & J: 2970

Smith: 469-5-1

Note

Because shakers and toothpick holders were made in this same pattern in chocolate glass, it is believed that this pattern salt was first made by Indiana Tumbler & Glass Co., then possibly continued production while part of the National Glass Co. combine that formed in 1899.

Sometimes attributed to McKee because they were also part of the National Glass combine.

Definitely not made by Fostoria as stated in H&J.
